THE BLUEPRINT FOR A GREENER RESTROOM

**STAPLES CENTER
LOS ANGELES, CA**

Since making the switch to Falcon Waterfree Urinals in 2007, Staples Center has saved an estimated 50 million gallons of precious water.

FALCON WATERFREE TECHNOLOGIES THE BLUE PRINT FOR A GREENER RESTROOM

OUR SUSTAINABILITY STORY

Nearly 15 years ago, we introduced our product as a way to help combat the world's deteriorating fresh water supply. Since that time we have put hundreds of thousands of urinals in operation and led the way for sustainability in washrooms.

To date, we have saved an estimated 20 billion gallons of water. Each installed Falcon Waterfree urinal potentially saves up to an average or more than another 40,000 gallons of water*.

Our users also save energy while cutting harmful greenhouse gas emissions associated with water transportation and waste treatment.

Our urinals help you earn LEED Points and are endorsed by WaterSense. Contact us to learn more about how we can help make your restroom more sustainable.

EVERY YEAR, ONE WATERLESS URINAL CAN SAVE UP TO 40,000 GALLONS OF WATER*

UTILIZING ZERO OPERATIONS ENERGY ON A DAILY BASIS

REDUCES ENERGY & GREENHOUSE GAS ASSOCIATED WITH WATER TRANSPORTATION

A MORE HYGIENIC RESTROOM

WATERLESS URINALS

FLUSH URINALS

5X LESS BACTERIA
THAN FLUSHING URINALS

Converting your facility to Falcon Waterfree urinals not only makes your restroom more sustainable, it also helps keep your restroom cleaner.

Research conducted by the Shanghai Environment Design Project Institute concluded that waterfree urinals had 5 times less bacteria than flush urinals.

Additionally, our waterfree urinals are touch-free eliminating another touch point for bacteria to spread.

TECHNOLOGY INNOVATION

NEW VELOCITY CARTRIDGE

Our Velocity cartridge uses multi-patent pending, industry-leading technology.

CUES YOU WHEN TO CHANGE IT

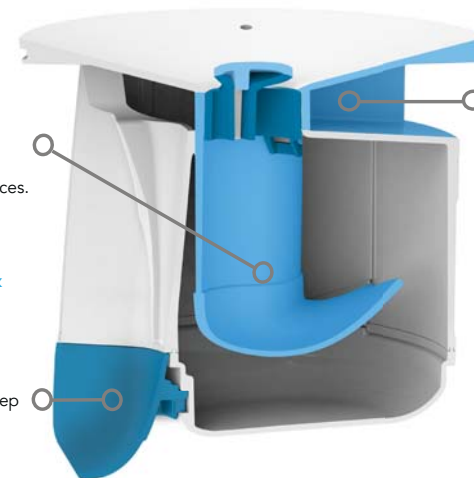

Our self-monitoring indicator provides you with a visual signal that helps you know when it is ready to be changed.

RETAINS SEALANT BETTER

Our interior baffle allows the cartridge to retain its sealant barrier even under the most challenging maintenance practices.

HELPS KEEP PIPES & HOUSING CLEANER

Our patent-pending anti-splash pour spout utilizes speed and direction to streamline urine through your pipes and help keep your housing and drain cleaner.

HELPS REDUCE RESTROOM ODOR

Our patented cartridge helps keep your restroom virtually odor-free by reducing the area where bacteria can grow.

SMALLER FOOTPRINT

Our Velocity cartridge boasts all of these features while using 20% less plastic than previous models.
